**e-WOMEN IN ICT** - Enhancing Skills to Bridge Digital Divide is an Erasmus+ Strategic Partnership project that aims to minimize the gap between men and women regarding ICT and entrepreneurial competences and opportunities.

The target group of the project is mainly women (VET learners) with or without ICT and entrepreneurial skills that want to (re)gain competences in these areas.

This chapter has the identity basic elements of **e-WOMEN IN ICT** and the specifications on how to use them.

To ensure a coherent and uniform visual identity, collaboration in the fulfillment and application of these standards is fundamental.

# Symbol Process

5

The **e-WOMEN IN ICT** symbol consists on the set of the 3 focus elements of this project:

## Logo

6

The main representation is through the horizontal version.  
The logo should always be reproduced from original final art  
and should never be redesigned or adapted.

Symbol

**e-WOMEN IN ICT**

Enhancing Skills to Bridge Digital Divide

Name

Description

# Safety Margins - Horizontal

7

The space between name and description (X) is what determine the size of the protection area of the logo. The minimum margin shown is for other possible versions of the brand and the upper one serves to protect the logo from any other element (text, image, ...) that is nearby and may prevent or hinder its visibility and / or reading. No other elements of this inward margin are permitted.

# Safety Margins - Vertical

8

The space between name and description (X) is what determine the size of the protection area of the logo. The minimum margin shown is for other possible versions of the brand and the upper one serves to protect the logo from any other element (text, image, ...) that is nearby and may prevent or hinder its visibility and / or reading. No other elements of this inward margin are permitted.

# Minimum Dimensions

In order to have the identity always legible, minimum dimensions of the logo have been defined, both for digital (px) and “print” (mm).

If a smaller version of the logo is needed, we have the possibility to remove the description. Or in very extreme and specific cases, leave only the symbol.

W/ description

230px

60.9mm

W/o description

130px 34.4mm

35px

9.3mm

166px

43.9mm

93px

24.6mm

# Colors

10

Main colors- Black, White, Blue and Pink  
Complementary colors - Green and Yellow

Pantone  
CMYK 0 - 0 - 0 - 100  
RGB 0 - 0 - 0  
HEX 000000

Pantone  
CMYK 82 - 48 - 0 - 44  
RGB 26 - 74 - 142  
HEX 1A4A8E

Pantone  
CMYK 0 - 80 - 57 - 15  
RGB 216 - 43 - 93  
HEX D82B5D

Pantone  
CMYK 72 - 0 - 12 - 27  
RGB 52 - 187 - 164  
HEX 34BBA4

Pantone  
CMYK 0 - 27 - 85 - 9  
RGB 232 - 170 - 34  
HEX E8AA22

# Test Text on Background

11

If the brand colors are used with text over it, it must be white or black, according to the rules shown below, in order to maintain a good contrast.

✗ Black Text  
on Blue

✓ White Text  
on Blue

✓ Black Text  
on Pink

✓ White Text  
on Pink

✓ Black Text on  
Green

✗ White Text on  
Green

✓ Black Text on  
Yellow

✗ White Text on  
Yellow

# Chromatic Versions

12

The following chromatic versions apply to both the horizontal and vertical logo.

Low contrast

High contrast and the main version of the logo when it's possible to use

# Monochromatic Versions

13

The following monochrome versions apply to both the horizontal and vertical logo. There are only two versions of the logo. White for dark backgrounds and black for light backgrounds.

# Grayscale Versions

14

In cases where color application is not possible, gray versions should be used. The same happens for the vertical logo.

# Background Color Usage

15

The preferred background color for the **e-WOMEN IN ICT** brand is white. If this application is not possible, it is important to predict the behavior of the logo on different backgrounds, taking into account the importance of the contrast. Only the text color should change, never the color of the symbol.

# Background Image Usage

16

The logo can also be applied on photographic backgrounds, as long as it meets the same requirements as for colored backgrounds.

It is extremely important that **e-WOMEN IN ICT** maintains its integrity and that none of the examples below are used. The following examples serve for both versions (horizontal and vertical).

Changes in Typography

Changes in relation of the elements

Deformation of proportions

Changes in symbol design

Shadow applications or other effects

Changes of the text color

Remove elements

Opacity application

Background w/o any contrast

Due to its appearance that can be interpreted as technological or even futuristic, the typeface family that best suited the **e-WOMEN IN ICT** brand was Rajdhani.

For situations in which this family cannot be used, it must be replaced by the source of the Arial system.

Note that the secondary font can never replace the main font in the logo.

## Rajdhani

abcdefghijklmnopqrstuvwxyz  
ABCDEFGHIJKLMNOPQRSTUVWXYZ  
123456789!@#%&\*()=?€

Light 200
